A Specific Contract Law.

[illegible] efforts for enabling the courts to enforce specific contracts in certain cases

Such a law has been for some time in use in California and found to work so well in that State that its repeal could not be effected after the measure had been made one of the issues of a political campaign. Of late the Supreme Court of California has sustained the law in a decision apparently made with out dissent, which is the more significant, that they have also sustained the act of Congress authorizing the issue of legal tender notes—finding among the implied powers conferred by the Constitution the authority for such enactment

There is a diversity of opinion—in the Legislature as well as upon the outside—as to the propriety of the enactment of a law authorizing specific contracts at the present session, and the arguments against it seem to be summed up in the editorial of the *Daily Statesman*, of the 19th inst, and the article in question was very likely written by a gentleman having a large amount of greenbacks to disburse The gist of the argument there made is to be found in the following passage, which occurs after an allusion to the local interests of our coast that would induce such a decision by our courts

"Without expressing an opinion upon the correctness of the California decision, we only assert—that the Supreme Court of that State, in making its decision, had every inducement of the kind we have alluded to, to seek reasons for affirming the constitutionality of the law With the Supreme Court of the United States it will be just the reverse The decision will be regarded in a national point of view, and not with reference to the peculiar condition or policy of the remote and somewhat obscure State of California In that court all extrinsic influences and considerations are against the law, and it will be weighed in the balance of national right and policy, and found wanting Regarded by the people and the government east of the Rocky Mountains as a practical nullification of the law of Congress"

There is one important fact, that of itself affords a forcible if not a sufficient commentary upon this view of the case The government recognizes the necessity of a specific contract to pay the interest of the national debt in gold, as essential to the maintenance of its credit, and not only so but it of currency, viewed in a national light, and "with reference to the peculiar condition or policy of the remote and somewhat obscure(!) State of California" The *Statesman* may not be aware, but it is never theless true, that the general government frequently makes contracts on this coast, specifically promising payment in gold, or its equivalent in legal tender notes A gentleman whom we might name has made such contracts for the delivery of cattle. Workmen on the forts around us, in legal tender notes, but at their quoted value, and all quartermaster's supplies are purchased on such terms and this is the practice followed in the military department of the Pacific, the soldiers being also promised a proportion of their pay in gold.

This is a most striking commentary on the fact that the general national policy is not applicable on this coast, a fact established by the action of the government, and a distinction to which it is compelled, by the fact stated Then, when the Specific Contract Law of "the somewhat obscure State of California" is taken to the Supreme Court of the United States, it will be strange, indeed, if the "peculiar condition and policy" of that State are not recognized as arguments in favor of sustaining the law, and will incline the decision, there rendered to favor as much as possible, the true interests and the real needs of a region which, though somewhat "remote and obscure" continues so steadily to supply the national commerce with its constant millions, and incidentally enables the government to command the treasurers of the nation This is of course, not a studied argument of law, it is only a glance at this question as to policy and right,—for none can deny that as a mere abstract right, the value of good gold should be recoverable that the man of mean instincts should not have the law to aid his unsound principles; and that if it is possible the current of trade shall have legal guarantee, that its course shall not be impeded

To effect this, the least the Legislature can do, is to enact a remedy, and if the law proves unconstitutional, it will be merely a dead letter, and not "involve the country in interminable trouble" the *Statesman* to the contrary notwithstanding While its good effects, if sustained, will give confidence to every business and [illegible]

At the worst, we could but be left as we are now, and have to depend on men's honor for the fulfillment of their promises. Our advertising columns frequently call the attention of the public to the deplorable fact that we are not "all honorable men," [illegible] "'tis true."

The Boise *News* contains the following

On Sunday night while the proprietor was absent a few minutes the jewelry shop next door to the Miners' Brewery and Bakery on Main street was entered by burglars, and some $1,300 worth of jewelry stolen The only article of goods left in the house was a large regulator clock which would doubtless have gone with the balance had it not been too unwieldy The theft was committed at midnight No clue has yet been found that promises to lead to the discovery of the thieves or recovery of the goods

The Idaho *Statesman* says

Business continues good Large stocks are continually arriving Stores, warehouses, and dwellings are going up in every part of the city [illegible]

ST LOUIS, Sept 25—It is said that Price has entered Missouri with a force of 30,000 His plan is supposed to be to enter the southern portion of the State with three columns, and endeavor to capture all the important points and hold the country It is reported that Kirby Smith will join him with 10,000 to 12,000 men Arkansas guerrillas are also concentrating for this movement The columns now in the southeast are doubtless under Shelby, who has now from 600 to 800 men

Reports to night say that part of the force which occupied Fredericktown yesterday captured [illegible] to day, doubtful. They may have been demonstrating in that direction, but the place is too strong to be taken by cavalry Military preparations are very active Troops are already moving southward blacksmith shops are all busy shoeing horses, ordnance stores are being sent to different points, and everything is being put in fine order for immediate and active service General Pickett has called out all who are enrolled and Rosecrans will issue an appeal calling the people to arms Trains on the Iron Mountain Railroad are still running and so far as known, the railroad has not been molested

A Washington special says that each gap into Shenandoah Valley will be fortified to prevent a future raid

WASHINGTON, 26—President Lincoln on the 23d addressed a letter to Montgomery Blair, Postmaster General, requesting his resignation, Blair having promised to resign when requested. The promise was made in consequence of a resolution which passed the Baltimore Convention declaring that it deemed it essential to the general welfare that harmony should prevail in the National Council, regarding as worthy of full confidence and official trust those only who cordially endorse the principles in the series of resolutions which should characterize the Administration of the Government Blair on reading this, verbally tendered his resignation which he held in abeyance till now. Immediately upon receiving the President's letter he formally resigned He says Why I resigned my office was not because of the principles adopted at Baltimore were objectionable, on the contrary, it was made in good faith, with a view to allay animosities among the friends of those principles in order to secure their triumph.

The President has expressed the greatest satisfaction with Blair's postal administration Gov Dennison, of Ohio, will probably be his successor. [illegible] Sulphur Springs trestle works

No fears are entertained of a raid in any considerable force on Sheridan's rear, by crossing through Surry Valley It is not believed here he will be able to reach Staunton with one third of his original command. Reinforcements are being sent to Sheridan from this vicinity and have reached Strasburg

NEW ORLEANS, Sept 19 Mobile advices report the gunboat expedition up Fish river. It has destroyed sawmills, grist mills, ship yards and lumber yards valued at $1,000,000 Fort Gaines is in fine condition Very little of Fort Morgan can be made serviceable

FROM THE UPPER COLUMBIA—We clip the following items from the Walla Walla *Statesman* of Sept. 23d:

Hon. S. W Babcock returned here this week from Kootenai where he has been since last spring. His account of the diggings corresponds with former published reports namely that they are very rich as far as they go, *but they do not go very far* five miles on Wild Horse creek being the extent of the paying country and this was claimed long ago by miners One claim in this region has yielded as high as twenty-five pounds per day. The country for fifty miles around has been pretty thoroughly prospected but nothing has been found that will pay. From two hundred and fifty to three hundred persons will winter in the mines, they being about all that can find profitable employment there [illegible] The [illegible] of the Coeur d'Alene mountains as reported Notwithstanding the researches this season have not resulted favorably to the miners concerned, Mr. Babcock still has great confidence in the future prospects of the country and predicts that extensive mines will yet be found in that direction The country he says *is very large* and it will require years to prospect it

Mr G D Mattis, Topographical Engineer, with his corps of assistants etc returned to Walla Walla this week from Snake river, having completed the establishing of the boundary line between the State of Oregon and Washington Territory This party arrived here from Washington City in Sept 1863, when they immediately [illegible] and have been since that time industriously and busily engaged in their responsible duties Mr M and his men are all in good health and spirits He is on his way to Washington City to make a final report of his work to the Secretary of the Interior

WE READ THAT ONE OF the sorest afflictions that the patient Job was called upon to bear was that of boils and they have been found to be, from that time to the present, the most troublesome and painful of visitors We have known instances where individuals were sure to have these eruptions break out upon them once a month at least They show an impure state of the blood, and that humor of some kind is lurking there, and the surplus of corruption is actually forced to the surface of the body, making its appearance in the form of Boils. Now, is it not best at once to purify the system? Do you ask what will do this? We answer, **Scovill's Blood and Liver Syrup.** It is curing humors in every form, and there is not a State in the Union where it has not accomplished the most astonishing cures

THE WEALTH OF THE MOUNTAINS.—We are favored with a private letter from one of the old residents of this city, which contains very much of interest relating to the prospects of the upper Columbia country, and we think we could not devote the same space to matters of greater importance than by extracts. The writer, Gen. McCarver, says: "The [illegible] of the newly discovered quartz region: The Silver Hill district was discovered about July 3d, by accident, as I learn from one of the party. They were attempting to find a new route from the South Boise mines to Placerville, by keeping near the Payette range of mountains, but finding the canon impassable, after [illegible] the [illegible] were compelled to retrace their steps, and pass the Moore's creek and Idaho City. On emerging from the canon to the summit of a high ridge—now Silver Hill—they discovered the croppings of extensive ledges of gold and silver bearing quartz. A few specimens were taken to their cabin near Placerville, where it remained for a month without being tested—so little was their knowledge of the great wealth they had stumbled upon in their rambles through the mountains—but finally a test with borax in a blacksmith shop, developed the truth of its riches and set the country aglow for [illegible]. When I reached Silver Hill I found about one hundred miners in and about two newly laid out towns—Banner City and Eureka—and strange as it may seem, some of the early pioneers remark that they can recollect when there was not a house to be seen in either of the places. Lots are being pre-empted rapidly, and some day we expect to rival the value of front lots in Portland. There are perhaps fifty ledges, besides different ones already discovered, and more are being struck every day. They are generally from two to eight feet in width. The Banner was the first, and I believe is the best, yet struck. It can be easily traced for several miles by its croppings. The Calhoun, the Washoe, the Black Warrior, and the Silver Ages are all exceedingly rich in silver. We are now in the midst of a quartz 'feet' excitement—such as was hardly surpassed in the palmy days of Washoe—and when I tell you that we have richer, and more extensive quartz mines in this region than were ever before known or found, in California or Washoe, or both together, I assert that which hundreds of men in the southern country will scoff at, but which narration history will never tell its [illegible]."

ROBBERY AT VICTORIA.—Capt. Hoyt, City Marshal, received a dispatch from Victoria via Olympia on Sunday, notifying him to be on the look out for burglars, upon the arrival of the steam propeller George S. Wright in this city, who were supposed to be on board. The bank of McDonald & Co. had been robbed early on the morning the propeller left for Portland, of $15,000 in sovereigns, $15,000 in notes of the Bank of British North America, and some of the notes of the firm, and it was thought the thief or thieves sailed in her. Upon the arrival of the boat in port the Marshal, assisted by Deputy Sheriff Arnold and Deputy Collector Parlier searched the passengers and their baggage, but found no trace of the money or burglars. A reward of $3,000 is offered for their detection and the recovery of the lost funds. We have withheld city notice of the affair, by request, that some means might be taken to arrest the guilty parties in case they should visit this section, but there is no evidence yet that they have strayed into Oregon. The officers of Vancouver Island are out in every direction, to ferret the matter, some of whom arrived in Portland on Monday night. The Victoria *Evening Express* of the [illegible] has full particulars of the robbery, from which it appears the Bank was entered through a skylight, through which, from the roof of a rear building, the thieves had undoubtedly been taking observations and knew exactly how to proceed when the clerks left for the night. One of the employees of the establishment had been arrested, on suspicion of being concerned in the robbery.

THEATRICAL.—The performance at the Willamette last night was good, and a full audience witnessed it. Everybody was delighted, and disappointed—not expecting to find such an excellent troupe. Mrs. Irwin performed several different parts admirably. Her style and physique is truly feminine, and she made a good impression with the audience. Mr. Irwin is decidedly a clever actor, and is deserving of all the encomiums he has received on his way to the Northern Coast from New York. Miss Clark has a modest and careful style, and sustained her parts in a most creditable manner. Mr. Myers is the same old sixpence, improved, if anything, by his trip to the Bay. We can conscientiously commend them all, and as the steamer will permit, they appear again to-night at Willamette Theatre, embarking for Victoria to-morrow.

TAKE CARE OF THE CHILDREN.—Yesterday afternoon a youngster of not above five summers was picked up on Front street, near Ash, where he was laying quietly flat on the pavement, and could not possibly have escaped being run over had a truck come suddenly upon him. The street is now used [illegible], and a word of caution may save the life of a child. Draymen, especially on steamer days, have something else to look after besides the children whose parents allow them to run in the very busiest avenues.

FROM LEWISTON.—C. P. Frary, Esq., of this city returned from a three month's tour in the mountains last evening. He has visited many of the prominent camps of the upper country. The scarcity of laborers in the Oro Fino district has compelled the miners to encourage the introduction of Chinamen. Mr. Fitch, of the firm of Fitch & Co., Lewiston, committed suicide on Thursday last, by shooting through his head, while in a fit of melancholy, supposed brought on by protracted illness.

LOW TIDES.—The waters of the Willamette river are at present nearly as low as they have ever been known by the oldest inhabitant. At low tides the water recedes to such an extent as to greatly facilitate the wharf improvements and stone foundations, now being laid on the levee grounds of the O. S. N. Company.

A TON OF BULLION.—The steamer *New World*, Capt. Wolfe, arrived from the Cascades last evening with a large lot of passengers and emigrant stock. Wells, Fargo & Co.'s Express Messenger brought a larger amount of treasure than usual, and we are informed that not less than a ton of bullion was on board.

THE LAUNCH.—Capt. Turnbull's new steamer, now building in East Portland, will be launched on to-morrow. The steamer *Vancouver* will remain over on that day, until the event transpires, giving the friends of the new craft, resident at Vancouver, a chance to witness its immersion.

THE OREGON CITY WORKS.—We learn by the contractor on the Oregon City Woolen Factory edifice, that the third story will be commenced to-day. The main building is 190 by 50 feet. The lower story of stone, and the second and third stories of brick.

OVERBOARD.—A person in a small boat, in pursuit of pleasure, yesterday fell overboard when about opposite the city. The only damage sustained was the wetting of his linen by an involuntary wash.

TO SAIL.—The steamship *Sierra Nevada* will sail from this port to-morrow evening for Victoria and San Francisco. The steamship *Brother Jonathan* is telegraphed to leave San Francisco for Portland on Saturday next.

The *Golden Age* has the following:

Sherwood of the Kootenai Express arrived here Saturday afternoon, ten days from the mines. He brings no accounts of new discoveries since last report except on the Columbia, where the miners are said to find fair pay. A merchant by the name of Ruddy was robbed at Fisherville, a short time since, of $7,000. He was engaged in a party [illegible] the street when some one entered his tent and took the above amount in gold dust. Reynolds & [illegible] took out a nugget weighing thirty-seven ounces and valued at $660. This is the largest nugget that has yet been found in the Kootenai mines. [illegible] & Co. are running a regular express to and from the mines to Virginia City, [illegible]. Parties wishing to send letters to that country will address in care of Drouillard & Sherwood, [illegible], and they will be properly dispatched.

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs. "*Brown's Bronchial Troches*" give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*
Redington & Co., San Francisco, Agents for the Pacific Coast.

Periodical Headache—so common in uncleared and marshy countries, Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of Ague in *disguise*—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these afflictions, it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.
Imitations are abroad! Be particular to enquire for *Dr. Osgood's India Cholagogue*. Sold everywhere.

OYSTERS! OYSTERS!
Louis McMurray & Co., Baltimore.
THE ATTENTION OF THE TRADE IS PARTICULARLY requested to the above favorite brand of Oysters. Messrs. McMurray & Co. claim to be the only firm that still adheres to the plan of opening the Oyster in its raw state, by hand, thus preserving intact its native delicacy and flavor. The superiority of this method over the one in general use, of steaming the Oysters in bulk in order to open them, whereby the natural liquor is lost and a manufactured one has to be substituted, is apparent, and recommends itself to all who have given this brand a trial.
The undersigned are receiving fresh invoices by each arrival of clippers from New York, which they offer to the trade on favorable terms.

JAMES DUFFY,
HORSE SHOER—STAR SHOP!
NO. 1 FRONT STREET, PORTLAND.
ONCE upon a time both a Saddler and a Blacksmith were required to work upon a Horse, but now the looks are done away with, and the Saddler is required no more. And not long ago Missourian Shoeing was very prevalent in this city, but now it is done away with, because the use of it was found to be only fit for Cayuse Ponies and not for American Horses.
Having had great experience in this line of HORSE SHOEING, gentlemen favoring me with a trial can rely upon having their work executed in the best workmanlike manner and upon the most reasonable terms.

A CANADIAN CONFEDERACY.—While ambitious slaveholders and [illegible] are trying to sever into two nations a people speaking the same language, holding the same beliefs, having the same customs and descended from ancestors of the same race and nation, to the north of us the people of another country, tired of divisions and quarrels, propose to put an end to these and to secure the general good by uniting them all in a Federal Union. It is a curious testimony to the practical value of our system of government that even in the midst of our great war, which [illegible] and [illegible] politicians in Europe [illegible] form of government [illegible] and those of Germany [illegible] vance towards the establishment of just such a system.

Nor is it less instructive to [illegible] what apparently discordant elements it is intended to bring together into a Canadian Union. The people of Upper and Lower Canada differ in blood, in language, and in religion; those in the former province are Englishmen and Scotchmen, and Protestants, those of Lower Canada are Frenchmen and Catholics. The political strife between these two "nationalities," to use a European phrase, has been constant and troublesome; and it is proposed to heal this strife and neutralize the differences which exist, and which will continue to exist, by combining the two Canadas, and with them the remainder of British America, into a Federal Union. It is not intended, of course, that this confederation shall separate itself from Great Britain, though we believe this will be the natural result in the course of time. For the present a British viceroy would be the Executive, while a Congress of delegates from the different provinces or States would exercise the legislative functions. The political leaders who have devised this scheme of government propose one novel feature—that federal, or, as we should say, the Congressional, delegation from each province shall also constitute the local legislature of that province. This is as though we should abolish the State legislatures, and let the members of Congress from each State take their places. It is in effect, entrusting the local or municipal business of each State or colony to the same persons who represent it in the general Congress.

This is a step in centralization which goes even beyond our own system and practice. The question of a Canadian Confederation will come up at the next session of the Provincial Parliament. Meantime, it is getting a thorough discussion in the provincial journals. The people of the United States will, we believe, welcome the formation of a British North American Union, not only as a compliment to our own form or system of government from neighbors who have watched its working, but also as giving promise of future intimate and agreeable relations between the two American Confederations.—*New York Post, Aug. 16th.*

A story is told of a deserter who has a glass eye, which he used to take out when he wanted to get discharged, or when after running away he wished to avoid detection. He entered and left the service 12 times, and will now leave it for the last time, as he is to be shot.

THE PROOFS OF ITS EFFICACY are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The class of diseases for which the Syrup provides a cure, is precisely that which has hitherto baffled the highest order of medical skill. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

Certificate of Dr. Hayes.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto carbonates, citrates and tartrates of the Materia Medica. A. A. HAYES, M. D.,

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER,

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see "American Medical Monthly," July 6, 1860, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

From the army [illegible] the bloody battle-field—the mansion of the rich and humble dwelling of the poor—from the office and the sacred desk—from the mountain tops, distant valleys and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

REEDSBURG, WIS., Sept. [illegible] 1864.

EDWARD WOUNSALL.

The following is from the manager of the Union Home School for the Children of Volunteers:

HAVEMEYER MANSION, FIFTY-SEVENTH STREET, New York, August 2, 1864.

"DR. DRAKE:—Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well. * * * Respectfully, MRS. O. M. DEVOE."

C. C. MOORE, 254 Broadway, N. Y."

etc. etc. etc. etc. etc.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c., all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS ATtended this invaluable medicine renders it the most valuable one ever discovered. In fact it stands unrivalled as a remedy for the permanent cure of the maladies above-mentioned, and also

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,

And in every disease in any way connected with the disorder or decay of the GENERATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once recruited, revivified and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom or an almost idiotic apathy, becomes bright and active, and he goes forth regenerated, conscious of new vigor. The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGUARY AND BURNING OR PAINFUL
URINATING,
CALCULUS, GRAVEL,

OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases and you will ever give praise to
